QUALITY DECLARATION: MATERIAL SAFETY DATA

Our company implements a quality management system (IQNet registration no. – CY.QS.1.11.010) which complies with the ISO 9001 standard. Our premises are (Y.Δ.Υ. registration no. 44.4423) follow the Cyprus provisions and regulations and the European regulations 178/2002 & 882/2004.

Materials used in our production are traceable through our coding system and can be identified from the last digits used in our item codes. The below table summarises our suppliers' safety data sheet claims and our independent third party chemical laboratory examinations.

SAFETY DATA						
Code	Description	Food Safety			Max Temp (°C)	Comments
		Dry	Moist	Fatty		
BK	Baking paper	✓	✓	✓	220	
GP	Greaseproof paper	✓	✓	✓		
HGG	Heavy board, laminated/laminated	✓	✓	✓		
HGW	Heavy board, laminated/uncoated	✓	✓	✓		Only laminated surface
LGS	Light board, laminated/laminated	✓	✓	✓		
LW	Light board, coated/uncoated	✓				Only coated surface
MG	Machine glazed paper	✓	✓	✓		
MGG	Medium board, laminated/laminated	✓	✓	✓		
MW	Medium board, coated/uncoated	✓	✓	✓		Only coated surface
P	PP lamination	✓	✓	✓		
TS	Tissue paper					
V	Varnish	✓	✓	✓		

- i. LW – In the case where the paper's uncoated side is used in the inner side of a box which will carry non prepackaged foodstuff, it is advised that an additional layer is included to stop the two from coming in contact (e.g. bases for cakes, greaseproof paper / PP lamination for snacks and treats).
- ii. TS – Tissue, the stretch film can be incinerated under standard conditions. It can be recycled as PE film (soft plastic).
- iii. Inks (food grade), are suitable for indirect food contact.

Valid until: 01/01/2018

Regards,

Yiorgos M. Savvides
